

m_math::julfit

```
graph LR; A[m_math::julfit] --> B[m_math::julfit1]
```

A diagram showing a mapping from a source node to a target node. The source node is a gray rectangle with the text 'm_math::julfit'. A blue arrow points from the right side of the source node to the left side of the target node. The target node is a white rectangle with a black border and the text 'm_math::julfit1'.

m_math::julfit1
