

m_random::init_random
_seed_by_dat

```
graph LR; A["m_random::init_random  
_seed_by_dat"] --> B["size"]
```

A diagram consisting of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains the text 'm_random::init_random' on the top line and '_seed_by_dat' on the bottom line. A dark blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the text 'size'.
