

LIBRARY/libGPF/download  
/tmp/C-jucolor.c

```
graph TD; A["LIBRARY/libGPF/download  
/tmp/C-jucolor.c"] --> B["stdio.h"]; A --> C["string.h"]
```

The diagram illustrates a file path at the top, which then branches into two arrows pointing to two separate header files below it. The top box is shaded gray and contains the text 'LIBRARY/libGPF/download' followed by a line break and '/tmp/C-jucolor.c'. Two blue arrows originate from the bottom of this box, pointing downwards and outwards to two white boxes. The left box contains 'stdio.h' and the right box contains 'string.h'.
